CONCERNING CANDIDATES FOR ADMISSION

To the Members of the Association:

The posted list of candidates proposed for admission to The Century Association will be found in the following pages.

You are requested to examine the list, and to send to the Committee such information, whether favorable or unfavorable, as you may possess and feel will assist in the consideration of any name. Article I of the Constitution declares: "This Association shall be composed of authors, artists, and amateurs of letters and the fine arts." The mere endorsement of a name is of little help to the Committee in determining whether a candidate, whatever his vocation, has such breadth of interest and qualities of mind as would make him a sympathetic, stimulating and congenial companion in such a society. *THE COMMITTEE SEEKS ENLIGHTENMENT.*

All communications are confidential. Letters unfavorable to a candidate are returned to their writers by registered mail, and all other letters are destroyed after final action has been taken. "The proceedings of the Committee shall be secret and confidential." (*Article VI, par. 4, of the Constitution.*)

Members are requested not to propose, second or endorse more than one candidate in any one letter.

For the guidance of members of the Association, we respectfully call attention to the Requirements of the Committee, which are printed on the following page.

THE COMMITTEE ON ADMISSIONS

REQUIREMENTS OF THE COMMITTEE ON ADMISSIONS

1. The proposer must write to the Committee, stating the qualifications of the candidate. The Letter should convey definite information as to the candidate's background, vocation, attainments, character, and personality. If he is not an artist or an author, it should also give evidence as to those interests and tastes outside of his vocation which would make him a sympathetic, stimulating, and congenial companion in a society of artists and authors.
2. The seconder must also write to the Committee in regard to the candidate. The letter should contain information of a character similar to that outlined for the proposer's letter.
3. The name, address, and vocation of the candidate shall be entered in the Candidates' Book, preferably by the proposer and seconder, with their signatures. The Secretary of the Committee may take such entry when letters of recommendation have been received from both proposer and seconder.
4. The candidate must be known to *at least two* members of the Committee if he is a candidate for resident membership or to *at least one* member if he is a candidate for non-resident membership. To facilitate the introduction of candidates to members of the Committee, proposers and seconders are asked to get in touch with the *Chairman of the Sub-Committee* to which the candidate has been assigned.
5. The Committee must receive, in addition to the letters of the proposer and seconder, *at least ten letters* from other members of the Association concerning a candidate for resident membership or *at least six* letters concerning a candidate for non-resident membership. These letters should do more than merely endorse a candidate; they should contain information which will be a source of enlightenment to the Committee as to the candidate's qualifications.

Note: The Committee on Admissions has long interpreted the term "amateur" as relating to "breadth of interest and qualities of mind and imagination" rather than to "occupation." It therefore suggests to proposers that in filling the space (in the Candidates' Book) designated "occupation," they use some term other than "amateur" to describe the candidate's "profession or occupation," in compliance with Rule I of the Committee, as adopted by the Association.

"Amateurs of Letters and the Fine Arts"

Your special Committee appointed to consider the difficulties that have lately developed within the Admissions Committee over the interpretation of the word "amateur" in Article I of the Constitution, and to report on a suggestion that Article I should be amended has made inquiries, has considered, and now reports.

We find that for more than sixty years the Committee on Admissions has been guided in passing upon qualifications of candidates not by such a narrow interpretation of the words "amateurs of letters and the fine arts" as would have required candidates to be experts or connoisseurs, but rather by the view that those words as used in the Constitution were intended to admit gentlemen of any occupation provided their breadth of interest and qualities of mind and imagination made them sympathetic, stimulating, and congenial companions in a society of authors and artists. We believe that this construction has long been clearly expressed through the Centurys' membership, and that the Admissions Committee may now regard it as being sanctioned and established by long usage and tradition. Consequently, we also think that the Admissions Committee need not hesitate to govern itself accordingly, and need not call upon the Club to undertake the difficult task of formulating a precise definition of the word "amateur."

On the other hand, we see no reason why it should not be admitted here that the Admissions Committee has erred in particular cases. It seems better to recognize this than to let anyone suppose that mistakes are to be accepted as precedents for a lax standard. This is stated because confusion has lately resulted from just that supposition.

The Admissions Committee should make it clear to all its members that it intends to interpret "amateur" very broadly, but never to interpret it so loosely as to cover candidates who do not clearly possess what may be called a responsible sympathy with letters and the fine arts, no matter how eminent or successful they may be, no matter how respectable socially, or how deserving of recognition on special grounds. It is understood that the writer of a technical treatise is not such an "author" as the Constitution intends; similarly, a mere collector, no matter how untiring, might well stand outside our broadest interpretations of "amateur." We do not want spiritual mediocrity. Our standard is obviously hard to define. But if the word "culture" did not sound priggish to some ears, it would perhaps suggest most briefly what the Century requires of a candidate quite apart from any special kind of ability or success.
